Atlah's Evaluation of Obama

My Dear Friend. I am Pastor James David Manning, of Atlah World Ministries, Harlem New York. I fully understand your outrage with my assessment of presidential candidate Barack Obama.

You should be fighting mad if there is no truth in my mouth.

- 1). If I am speaking ill of Obama out of gross ignorance, then you should pray my ignorance be removed, for ignorance is a deadly disease of the mind and spirit.
- 2). However, I wish to state that I believe I am of a sound mind; I love Jesus and have been washed in His life-giving blood. Secondly, I love all of God's people, Red, Yellow, Black and White, but I have a special love for Black people.
- 3). I am not now, nor do I ever plan to be a supporter of the Clintons. For more than 12 years, I tried to warn Black America to look to God and He would reveal that William Jefferson Clinton has not been sent to help them, but to hinder. I was ostracized and hated by my Black people for speaking out against then President Clinton, the same way you are misunderstanding and hating me now.
- 4). Likewise I have warned that Barack Obama is not sent by God, but rather by White people to disrupt the plan of God for Black people, America, and the world.

I know many of my statements have been stinging and painful; but the truth is always such. Healing often requires exacerbating the wound before the soothing balm can be applied. I only sought to clean out your mind, so the truth can be received.

When Moses went down into Egypt, he stood before Pharaoh and declared, "Let my people go." He could have said, I am half Egyptian, raised in your palaces and schools. He did not; rather he stated, I am a Jew, you are oppressing the Jews; let my people go. Barack has tried to appease the oppressor, and referenced his relationship with the oppressor, rather than the oppressed.

If this letter has annoyed you, please forgive me and inform me, and I promise not to inflict myself on you any further.

A second please: when your anger subsides, please try to hear what I am saying about Black and White folk, American racism and the candidacy of Barack Obama, as a word from the Lord. *Every prophet is hated and killed by his generation.* I expect God's truth to draw hate from this untoward generation.

Peace.

The Honorable James David Manning, PhD
