

# Delano Village Housing Complex:

James David Manning, PhD  
No Dew, Nor Rain

**HEAR YE THE WORD OF THE LORD.**

**You are being led to the gentrification and eviction slaughter.**

**You will not be able to live in this property beyond the limit of your present lease.**

You are being told to be quiet, put your head in the sand, expose your rear end, and all your housing problems will go away.

Thus saith the Lord; there are rats among you, on your tenants association and councils. They crawl between the walls and listen to your conversations in your bedrooms. Then they scurry back and tell the man what you have said. They tell him, about your weaknesses, how much money you have, who is afraid, and who is fool hearted.

**You must organize a rent strike now, but first destroy all the rats within your ranks.**
